

Boost Efficiency and Maximize Returns with Annata's Rental Solution

Vehicle rental is driven by convenient vehicle swapping options, affordable monthly plans, and flexible contract durations. This is made possible for businesses with the birth of efficient digital solutions that automate and optimize car rental management.

Annata 365 supports automotive rental providers with all the features needed for monitoring and analyzing the entire process, from renting and invoicing to returns and maintenance. Developed on top of Microsoft Dynamics 365, Annata's decades of experience in the automotive industry fuel the capabilities and functionalities of the solution to help rental businesses achieve greater returns.

Key Highlights

Interactive Rental Browsers

The Annata 365 solution provides an interactive and comprehensive browsing tool allowing the user to effectively search for available rental asset based on rental asset group, the expected return date & time and current physical location.

Manage multiple devices across multiple rental locations

Annata 365 supports businesses that deal with multiple sites and rental locations allowing all branches to access the same data and determine not just fleet availability at their own location, but asset status across all locations.

Bulk Rental Capabilities

Annata 365 allows rental businesses to monitor and track all rental vehicles for transport, maintenance and/or service.

Benefits

Industry Specific

Built to deliver industry-specific functionality for automotive organizations. Enjoy benefits of best practices and "out of the box" device features.

Actionable Insights

Actionable insights improve business performance and drives business by providing business critical insights for quicker analysis and decision making.

Workspaces

Role-based workspaces provide users with complete tools and information needed to perform their role efficiently.

Cloud Based

Highly secured and scalable Cloud-based solution that will enable customers to save money by reducing the IT burden and hardware maintenance.

Rich User Experience

Quickly and easily access your ERP solution through desktop or mobile web browser. Ability to personalize your user screens without need of programming skills.

Choice & Flexibility

A365 excels in its ability to deliver an intuitive solution built around your company's unique needs. Choose how you would like to deploy either in the Cloud, On-premise or Hybrid (Legacy systems + Cloud)

Core Functionalities

Rental	Invoicing	Return	Service
<p>Manage vehicle rentals quickly and easily without the need for expensive infrastructure.</p> <p>Asset fleet management Full 'cradle to grave' life-cycle management of the vehicle fleet.</p> <p>Availability and reservation Plan Gantt view with 'Real time' asset availability.</p> <p>Advanced allocation and replacement Use different asset allocation, upgrade, and replacement options.</p> <p>Advanced rental asset classification and search Find rental vehicle based on extensive classification/property options.</p> <p>'Shopping basket' functionality Handle inquiries, raise rental quotations and orders with 'step by step' process.</p> <p>Accessories and consumable sales support Offer rental accessories or additional services and add them to rental orders e.g., navigation system or fuel management</p>	<p>Create professional invoices, send payment reminders, and keep track of your charges.</p> <p>Flexible charging methods Charge by time period or by usage, with excess usage charge option at higher rates.</p> <p>Periodic invoicing Functionality enables invoices to be created periodically or on demand. Charges can be combined on a single invoice for multiple rental orders to one customer if required.</p> <p>Rental alterations To credit or adjust the rental price: for nonchargeable days or periods where extra charges need to be applied.</p>	<p>Manage and track your rental returns in real time.</p> <p>Interactive inspections Carry out rental asset delivery/ return inspections and create service orders to cover inspection failures.</p> <p>Transfer between locations Transfer rental vehicles between locations, track asset location and transfer status.</p> <p>Lost and found handling Register and search for lost and found items.</p> <p>Flexible return methods Vehicles can be picked up from one location and returned to another.</p>	<p>Reduce vehicle downtime and maintenance costs with a configurable and easy-to-use solution.</p> <p>Work order management Schedule your resources, plan workhours and manage the allocation of service orders.</p> <p>Rental asset history Log your asset history, including usage, service orders, claims etc. Snapshot view of 'wet' and 'dry' performance of your assets.</p> <p>Maintenance plan templates Set up a maintenance plan structure and assign it to rental assets.</p> <p>Asset recalls Ensure the safe use of vehicles through comprehensive asset recall functionality.</p>

Analytics

Rich interactive dashboards, reports, drilldowns, and various filter options provide an overview of actionable business data that saves time when needing to make quick and well-informed decisions

Success Story

Brimborg is Iceland's largest integrated vehicle and equipment distributor, headquartered in Reykjavík, Iceland. Brimborg chose Annata to provide them with a cloud-based, unified business solution that could digitally transform all their business processes.

"From the start, Annata's DMS solution had a great impact on the organization's daily operations. The speed of service has increased tremendously, as necessary information is only a click away,"

- Egill Jóhannsson, CEO, Brimborg Iceland.
